
Student visa processing Aviation Industry Association

Immigration New Zealand
Ministry of Business, Innovation and Employment

April 2024

The data included in this report covers international students only.

Aviation education providers included in the data: *Air Hawkes Bay, Airways Training Centre, Ardmore, Eagle, IAANZ, Mainland, Nelson Aviation, North Shore Aero, NZ ICPA, Wanaka Helicopters*

Private Training Establishment (PTE) data includes all PTEs – aviation, English language Schools plus other PTEs

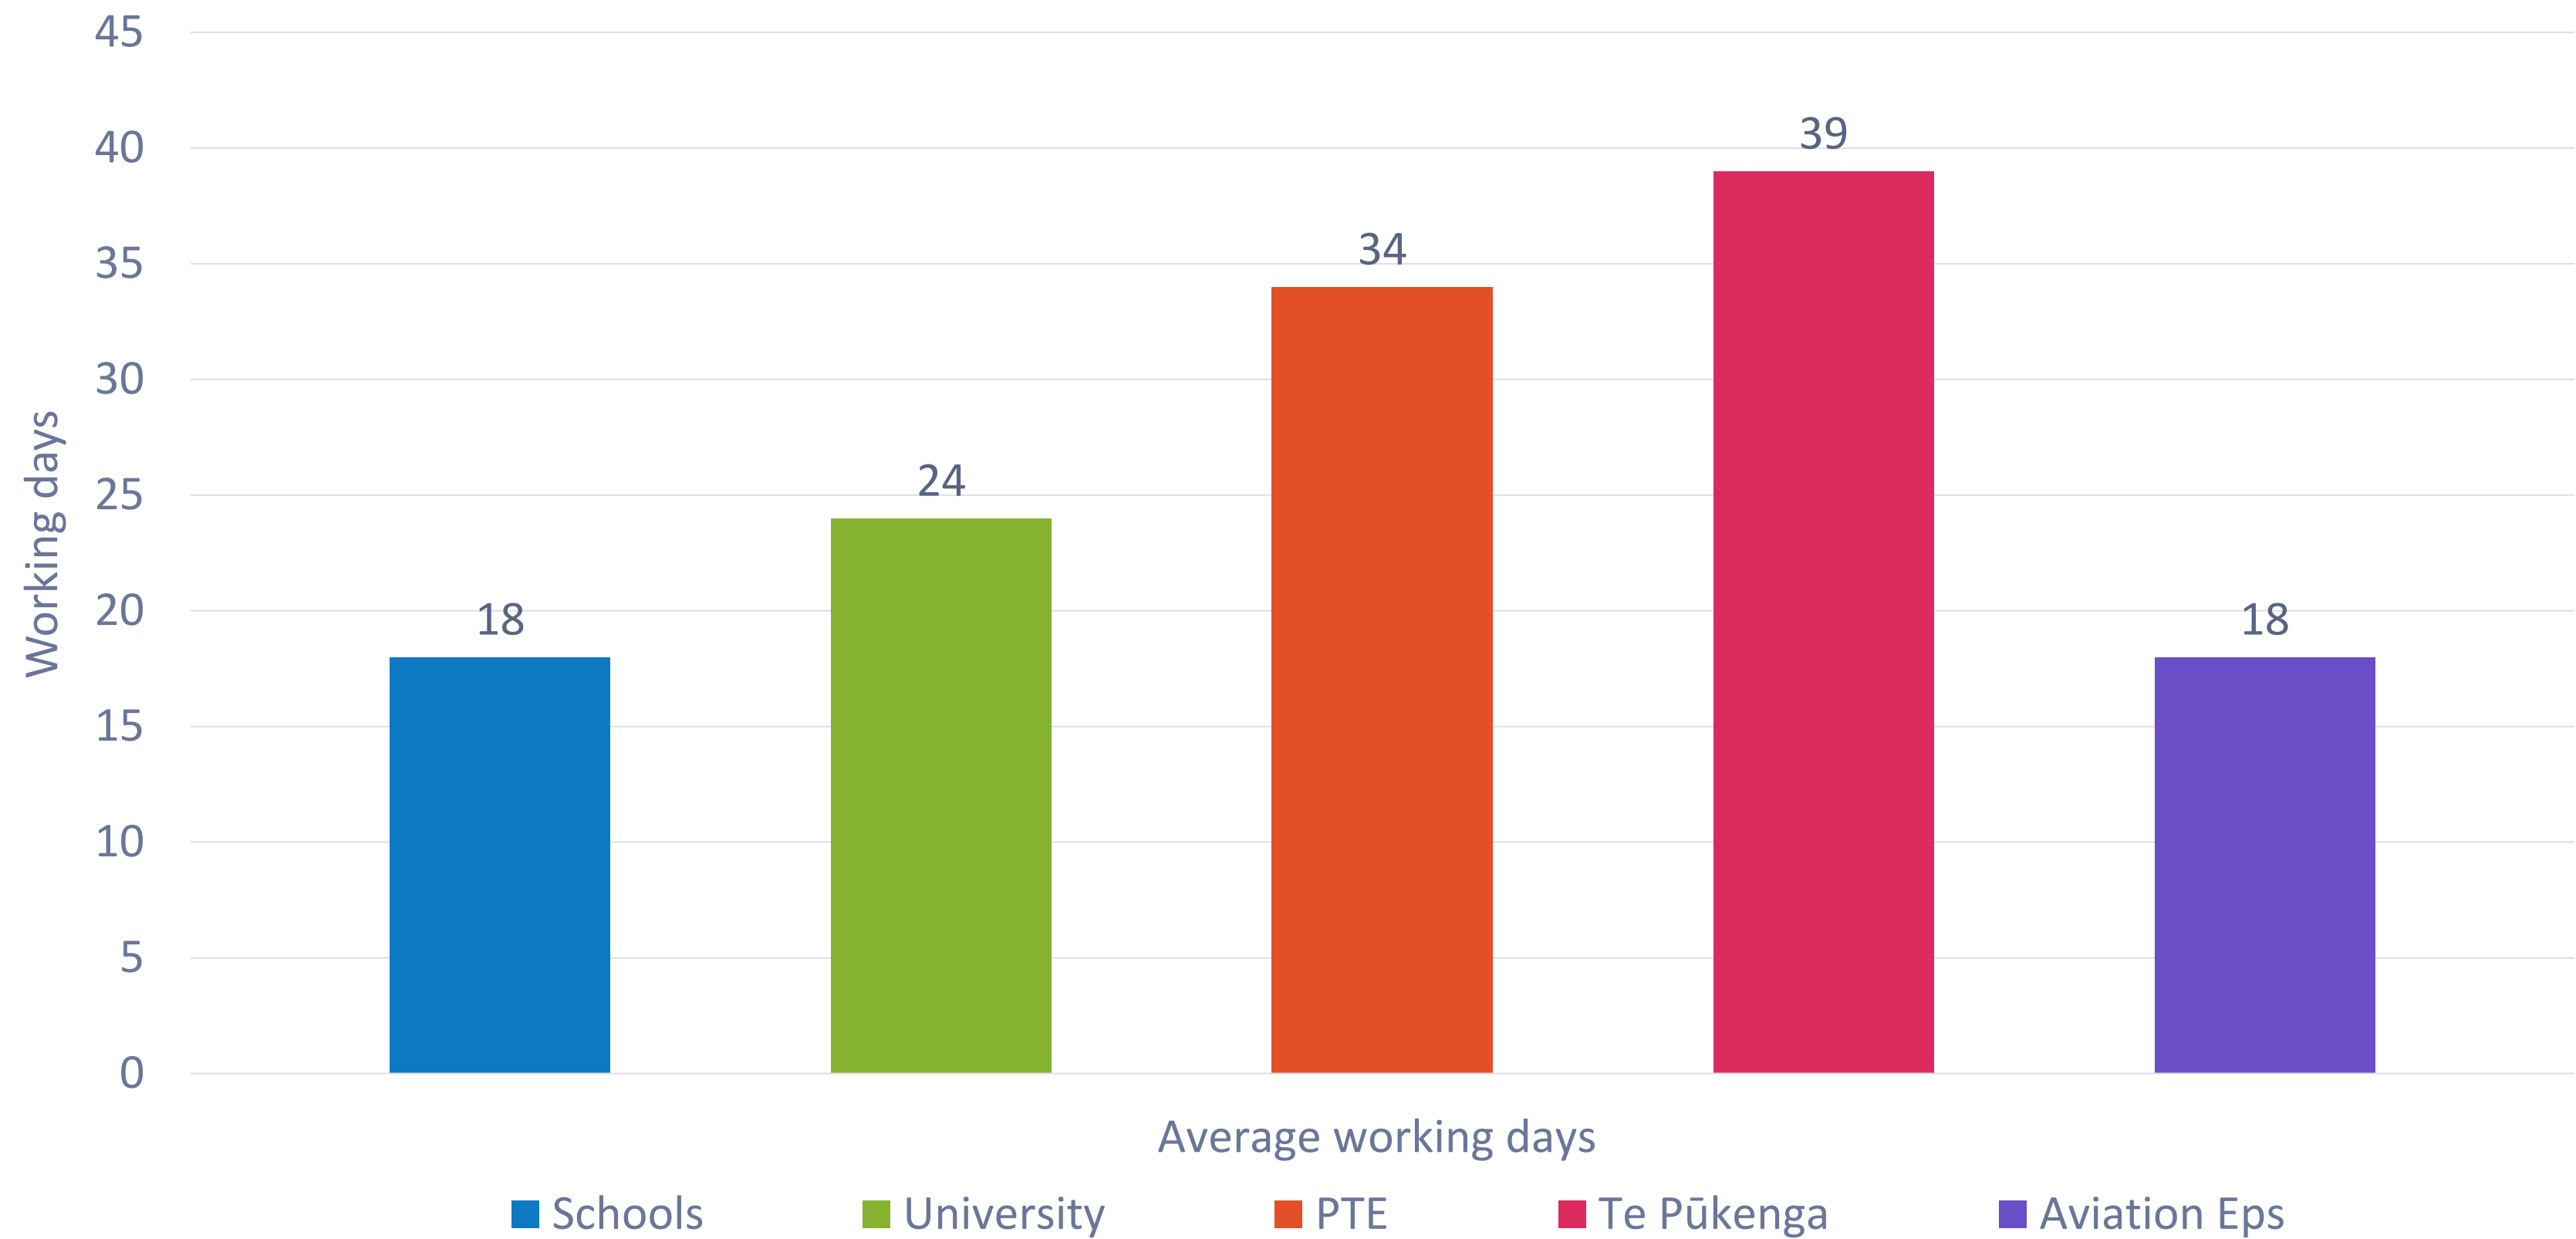

Unless specified otherwise, the reporting is based on offshore applications (excludes applications from students who are in New Zealand).

Unless specified otherwise, the reporting uses the ‘completed’ date as measurement rather than the ‘decided’ date. This is because ‘completed’ is the longest measurement in the student visa process. Countries or providers that use the Approval in Principle process will have longer processing timeframes because once the visa is ‘decided’ as an approval, there may be additional days - weeks before the documents are sent in to complete AIP.

All information is correct at the time of the presentation. Immigration policies can change. Always check the INZ website for up to date information.

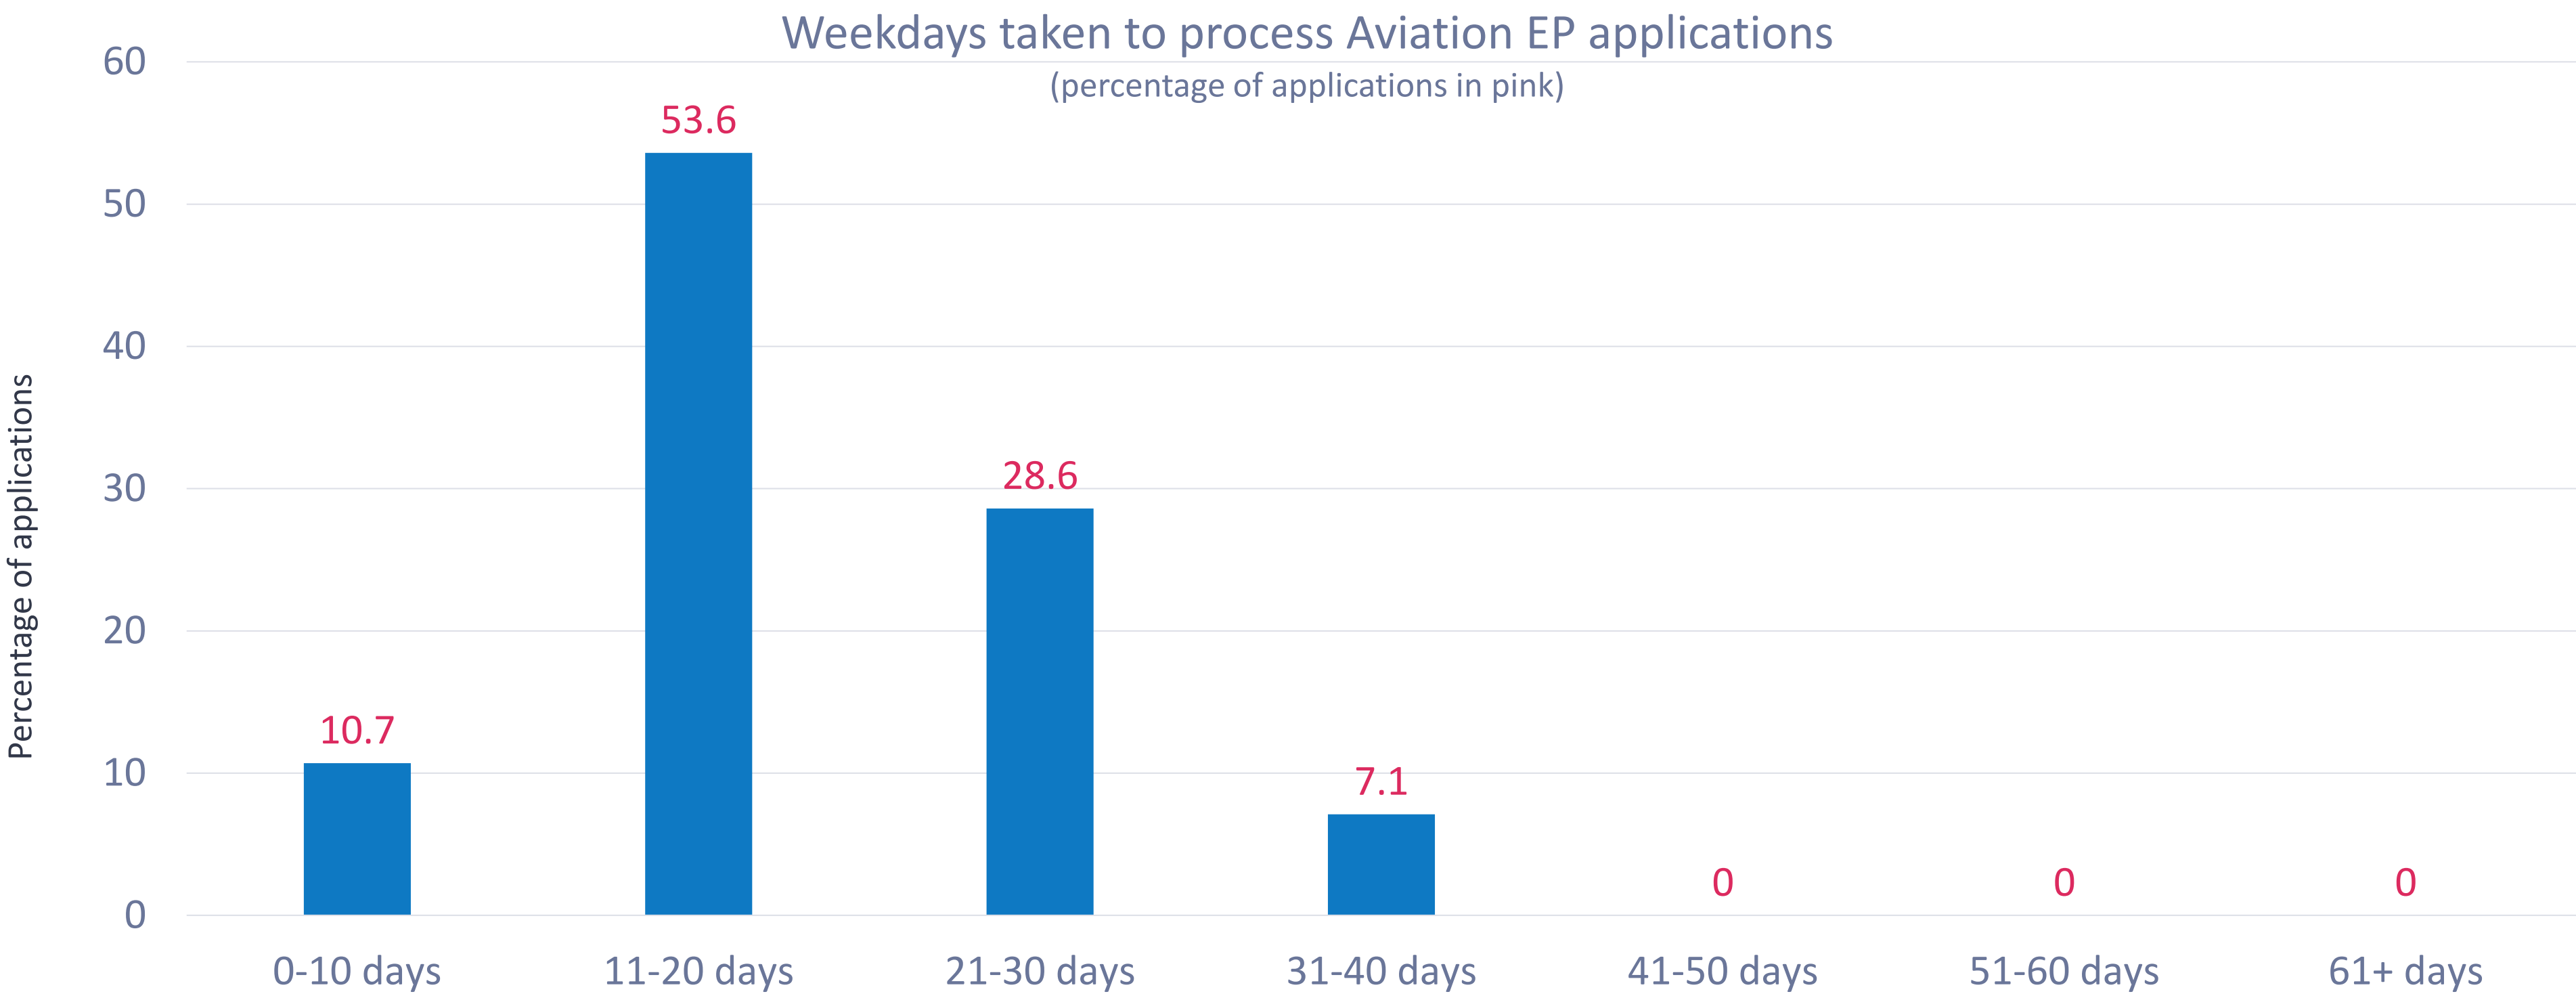

Timeliness - offshore student visa applications (working days)

1 Jan 2024 – 04 April 2024

Timeliness - offshore student visa applications

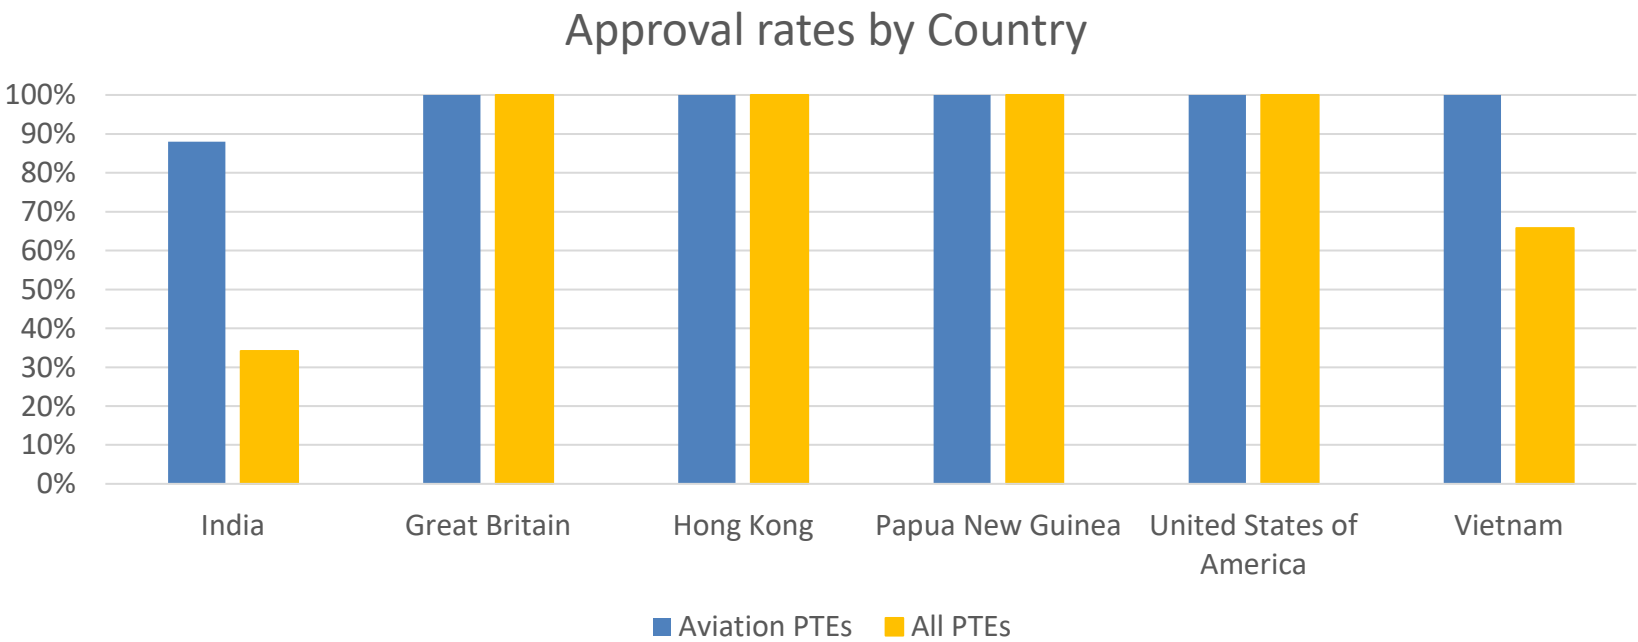

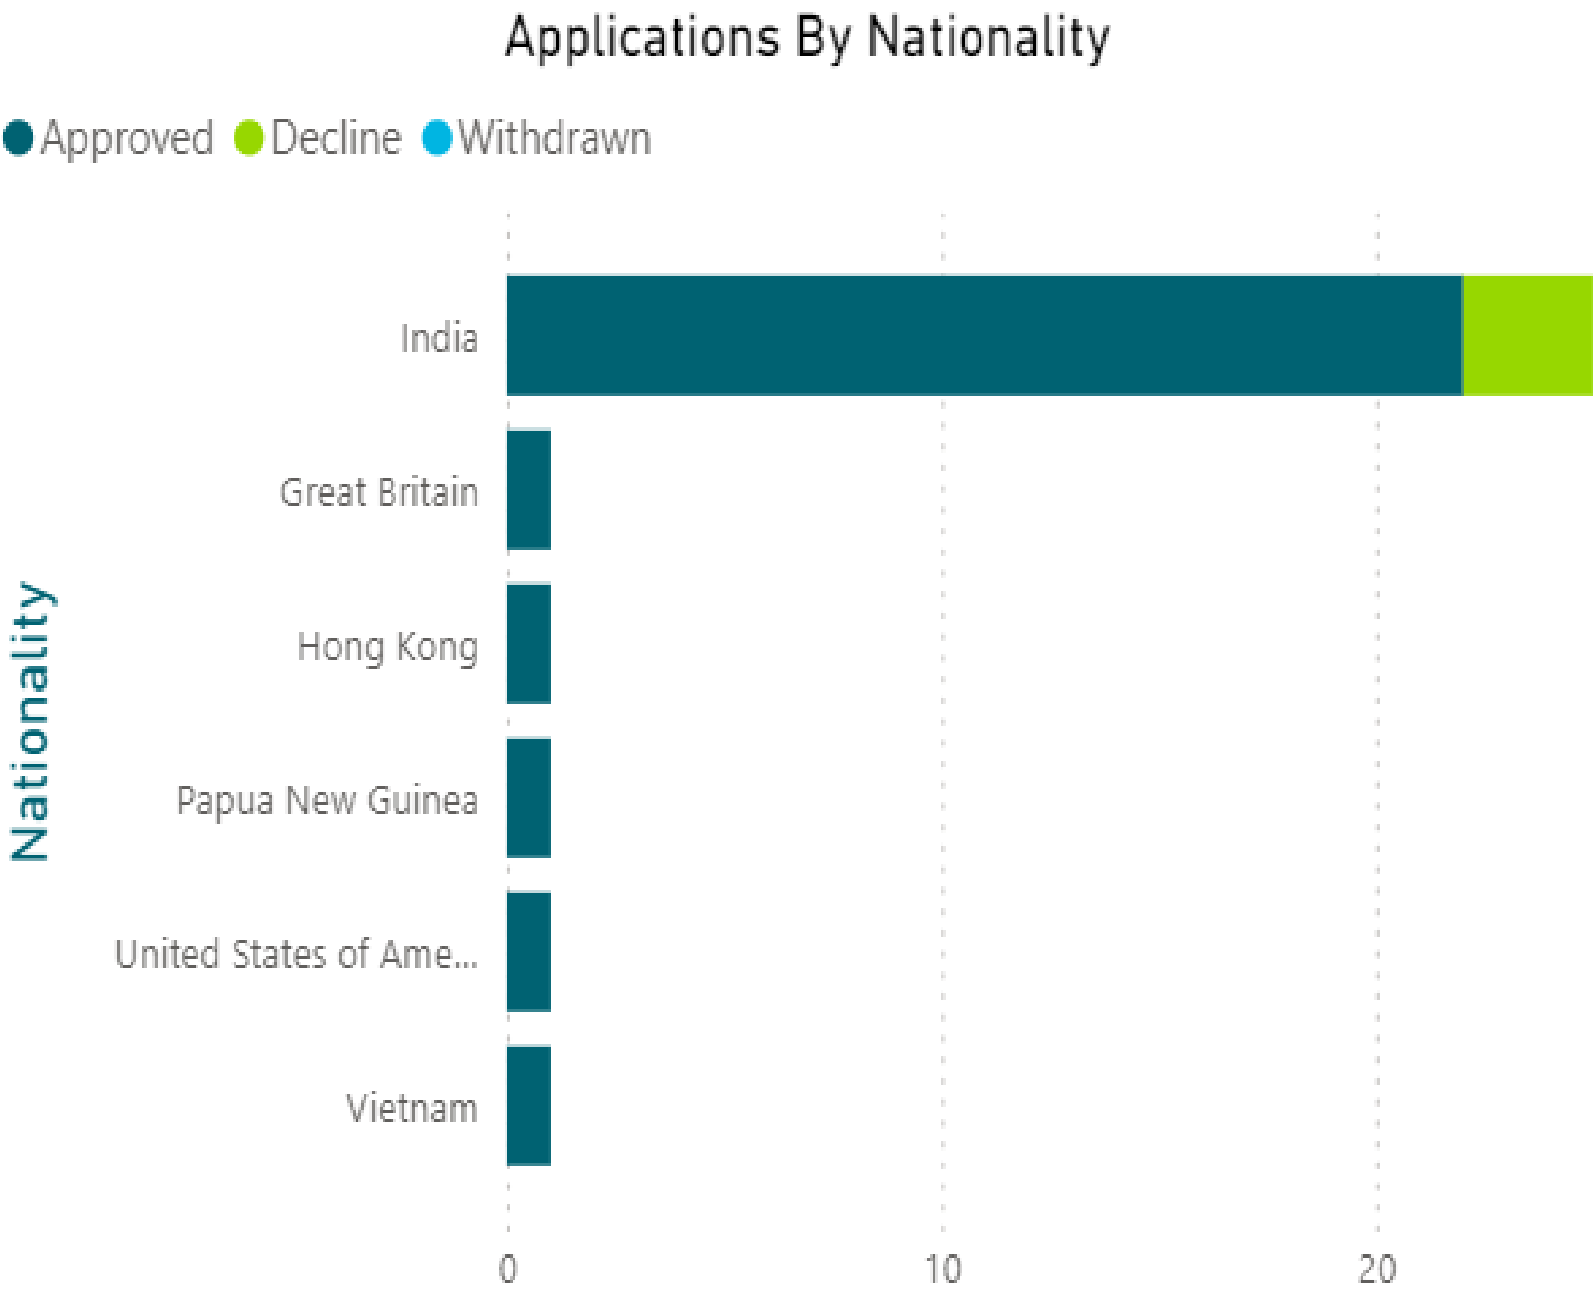

1 Jan 2024 – 04 April 2024

Aviation student visa processing

Applications received and decided (offshore students) 1 Jan 2024 – 04 April 2024
